

How to Check Your Device before the Conference

We encourage you to test your system using the instructions below several days before the conference begins to ensure you can join quickly and on time.

PLEASE READ THE SYSTEM TEST INSTRUCTIONS BELOW TO MAKE SURE YOUR COMPUTER HAS THE HARDWARE AND SOFTWARE TO ATTEND THE CONFERENCE.

This event will be completely web-based, so there will be no teleconference number or passcodes.

You will need a device with speakers in order to hear the presentations. You can also use headphones.

To attend the conference, pick your platform below to ensure you have the required operating system and browser. You will need to make sure you have a HTML5 compatible browser/device. See below for the device type and required operating system and browser.

You can also see if your device meets the system requirements, by using this link:

https://ncnla.peachnewmedia.com/SystemCheckv3/index.php?topic_id=385197

Windows Desktop/Laptop

Operating System: Windows XP or newer

Browser: Internet Explorer 10 or above, Mozilla Firefox 3.4 and above, Google Chrome

Mac MacBook/iMac

Hardware: An Intel Based Mac

Operating System: Mac OS 10.6 and above

Browser: Safari 4 and above, Mozilla Firefox 3.4 and above, Google Chrome

Linux Desktop/Laptop/Chromebook

Browser: Mozilla Firefox 3.4 and above, Google Chrome

iOS iPhone/iPad

iOS version 5 or greater

Android Smartphone/Tablet

Android version 3 or greater

You will need to make sure you have the Adobe Flash plug-in or a HTML5 compatible browser/device. Due to the complex nature of HTML5 support, please visit [this page](#) to confirm your browser's HTML5 video and audio compatibility. H.264 video and AAC audio must be supported.
